NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

Editors-in-Chief

STEVEN J. COOPER
Department of Psychology
University of Durham
Science Laboratories
South Road
Durham DH1 3LE, UK
E-mail: s.j.cooper@durham.ac.uk

ANN E. KELLEY
Department of Psychiatry
University of Wisconsin - Madison Medical School
6001 Research Park Blvd
Madison, WI 53719
USA
E-mail: aekelley@macc.wisc.edu

Editorial Advisory Board

JOHN AGGLETON, University of Wales, College of Cardiff, Cardiff, UK
JOCELYNE BACHEVALIER, University of Texas Health Science Center, Houston, TX
CAROL A. BARNES, University of Arizona, Tucson, AZ
JILL BECKER, University of Michigan, Ann Arbor, MI
D. CAROLINE BLANCHARD, University of Hawaii, Honolulu, HI
H. STEFAN BRACHA, VA National Center for PTSD, Honolulu, HI
LARRY L. BUTCHER, University of California, Los Angeles, CA
ANTOINE DEPAULIS, INSERM, Strasbourg, France
JEAN DE VRY, Institute of Neurobiology, Cologne, Germany
GAETANO DI CHIARA, University of Cagliari, Cagliari, Italy
COLIN T. DOURISH, Cerebrus Ltd, Ascot, UK
DAVID EILAM, Tel Aviv University, Tel Aviv, Israel
BARRY J. EVERITT, University of Cambridge, Cambridge, UK
MICHAEL S. FANSELOW, University of California, Los Angeles, CA
MARK A. GLUCK, Rutgers University, Newark, NJ
CHARLES A. HEYWOOD, Univesity of Durham, Durham, UK
MICHAEL H. JOSEPH, University of Leicester, Leicester, UK
NEIL McNAUGHTON, University of Otago, Dunedin, New Zealand
PETER J. MORGANE, University of New England, Biddleford, ME
JOHN NELSON, Monash University, Clayton Victoria, Australia
RANDOLPH J. NUDO, University of Texas, Houston, TX
GEORGE PAXINOS, University of New South Wales, Sydney, Australia
PETER REDGRAVE, University of Sheffield, Sheffield, UK
TREVOR W. ROBBINS, University of Cambridge, Cambridge, UK
TERRY E. ROBINSON, University of Michigan, Ann Arbor, MI
JERRY RUDY, University of Colorado, Boulder, CO
BENJAMIN RUSAK, Dalhousie University, Halifax, NS, Canada
PAUL SANBERG, University of South Florida, Tampa, FL
SUSAN SCHIFFMAN, Duke University, Durham, NC
PER A. T. SÖDERSTEN, Karolinska Institute, Stockholm, Sweden
RICHARD F. THOMPSON, University of Southern California, Los Angeles, CA
IAN Q. WHISHAW, University of Lethbridge, Lethbridge, AB, Canada
NORMAN WHITE, McGill University, Montreal, Que., Canada
JOHN YEOMANS, University of Toronto, Toronto, ON, Canada

Founding Editor: Matthew J. Wayner

Editorial Assistant to Steven J. Cooper: Suzanne Higgs

Neuroscience & Biobehavioral Reviews is an official journal of the International Behavioral Neuroscience Society. For information about the society, please contact: Marianne Van Wagner, IBNS Central Office, Division of Life Sciences, The University of Texas at San Antonio, 6900 North Loop 1064 West, San Antonio, TX 78249-0662 USA. Fax: (210) 458 4510 or E-mail: editoff@lonestar.utsa.edu.
Members of the International Behavioral Neuroscience Society may order personal subscriptions at a concessional rate: details of this rate are available upon request.

Publishing Office: Elsevier Science Ltd, Bampfylde Street, Exeter EX1 2AH, U.K. *Tel.* +44 (0)1392 251558; *Fax +44 (0)1392 425370]*

Author Service Department For queries relating to the general submission of articles (including electronic text and artwork) and the status of accepted manuscripts, please contact the Author Service Department: e-mail: authors@elsevier.co.uk; *Fax* +44 (0)1865 843905; *Tel.* +44 (0)1865 843900.

Published 1998 in January, March, May, July, September and November.

CONTENTS DIRECT

ContentsDirect delvivers the table of contents of this journal, by e-mail, approximately two-four weeks prior to each issue's publication. To receive this free service, complete and return the form at the back of this issue or send an e-mail message to: CDsubs@elsevier.co.uk

CONTENTS OF VOLUME 22

NUMBER 1

Flood, J. F. and Morley, J. E.	Learning and memory in the SAMP8 mouse	1
Ruotsalainen, S., Miettinen, R., MacDonald, E., Riekkinen, M. and Sirvio, J.	The role of the dorsal raphe–serotonergic system and cholinergic receptors in the modulation of working memory	21
Ramos, A. and Morméde, P.	Stress and emotionality: a multidimensional and genetic approach	33
Toates, F.	The interaction of cognitive and stimulus–response processes in the control of behaviour	59
Haller, J., Makara, G. B. and Kruk M. R.	Catecholaminergic involvement in the control of aggression: Hormones, the peripheral sympathetic, and central noradrenergic systems	85
McDonald, M. P. and Övermier, J. B.	Present imperfect: A critical review of animal models of the mnemonic impairments in Alzheimer's disease	99

NUMBER 2

Whishaw, I. Q. and Bland, B. H.	Cornelius H. Vanderwolf: an introduction	121
Vanderwolf, C. H.	Brain, behaviour, and mind: what do we know and what can we know?	125
Kolb, B., Forgie, M., Gibb, R., Gorny, G. and Rowntree, S.	Age, experience and the changing brain	143
Goodale, M. A. and Haffenden, A.	Frames of reference for perception and action in the human visual system	161
Ellard, C. G.	Comparitive perspectives on multiple cortical visual systems	173
Cain, D. P.	Testing the NMDA, long-term potentiation, and cholinergic hypotheses of spatial learning	181
Teskey, G. C. and Valentine, P. A.	Post-activation potentiation in the neocortex of awake freely moving rats	195
Whishaw, I. Q.	Place learning in hippocampal rats and the path integration hypothesis	209
Oddie, S. D. and Bland, B. H.	Hippocampal formation theta activity and movement selection	221
Harper, R. M., Poe, G. R., Rector, D. M., and Kristensen, M. P.	Relationships between hippocampal activity and breathing patterns	233
Sainsbury, R. S.	Hippocampal theta: a sensory-inhibition theory of function	237
Dringenberg, H. C. and Vanderwolf, C. H.	Involvement of direct and indirect pathways in electrocorticographic activation	243
Bland, B. H. and Oddie, S. D.	Anatomical, electrophysiological and pharmacological studies of ascending brainstem hippocampal synchronizing pathways	259
Leung, L. S.	Generation of theta and gamma rhythms in the hippocampus	275
Kirk, I. J.	Frequency modulation of hippocampal theta by the supramammillary nucleus, and other hypothalamo-hippocampal interactions: mechanisms and functional implications	291
Chrobak, J. J. and Buzsáki, G.	Operational dynamics in the hippocampal-entorhinal axis	303
Konopacki, J.	Theta-like activity in the limbic cortex in vitro	311
Baker, G. B., Fang, J., Sinha, S. and Coutts, R. T.	Metabolic drug interactions with selective serotonin reuptake inhibitor (SSRI) antidepressants	325
Beninger, R. J. and Miller, R.	Dopamine D1-like receptors and reward-related incentive learning	335
Robinson, T. E., Browman, K. E., Chrombag, H. S. amd Badiani, A.	Modulation of the induction or expression of psychostimulant sensitization by the circumstances surrounding drug administration	347
Eggermont, J. J.	Is there a neural code?	355

NUMBER 3

Myers, R. D., Adell, A. and Lankford, M. F.	Simultaneous comparison of cerebral dialysis and push–pull perfusion in the brain of rats: A critical review	371
Malek-Ahmadi, P.	Cytokines in dementia of the Alzheimer's type (DAT): relevance to research and treatment	389
Salansky, N., Fedotchev, A. and Bondar, A.	Responses of the nervous system to low frequency stimulation and EEG rhythms: clinical implications	395
Bisazza, A., Rogers, L. J. and Vallortigara, G.	The origins of cerebral asymmetry: a review of evidence of behavioural and brain lateralization in fishes, reptiles and amphibians	411

Briese, E.	Normal body temperature of rats: the setpoint controversy	427
Nelson, E. E. and Panksepp, J.	Brain substrates of infant–mother attachment: contributions of opioids, oxytocin, and norepinephrine	437
Nelson, R. J. and Young, K. A.	Behaviour in mice with targeted disruption of single genes	453

NUMBER 4

Gramsbergen, A. and Hadders-Algra, M.	Editorial: Development of postural control, a basic aspect of neuro-ontogeny	463
Massion, J.	Postural control systems in developmental perspective	465
Mittelstaedt, H.	Origin and processing of postural information	473
Kernell, D.	The final common pathway in postural control–developmental perspective	479
Holstege, G.	The anatomy of the central control of posture: consistency and plasticity	485
Dietz, V.	Evidence for a load receptor contribution to the control of posture and locomotion	495
Hadders-Algra, M., Brogren, E. and Forssberg, H.	Development of postural control–differences between ventral and dorsal muscles?	501
Thelen, E. and Spencer, J. P.	Postural control during reaching in young infants: a dynamic systems approach	507
Bertenthal, B. and Von Hofsten, C.	Eye, head and trunk control: the foundation for manual development	515
Van Der Fits, I. and Hadders-Algra, M.	The development of postural response patterns during reaching in healthy infants	521
Assaiante, C.	Development of locomotor balance control in healthy children	527
Grasso, R., Assaiante, C., Prevost, P. and Berthoz, A.	Development of anticipatory orienting strategies during locomotor tasks in children	533
Dunbar, D. C. and Badam, G. L.	Development of posture and locomotion in free-ranging primates	541
Gramsbergen, A.	Posture and locomotion in the rat: independent or interdependent development?	547
Bril, B. and Ledebt, A.	Head coordination as a means to assist sensory integration in learning to walk	555
Geisler, H. C. and Gramsbergen, A.	Motor development after vestibular deprivation in rats	565
Crenna, P.	Spasticity and 'spastic' gait in children with cerebral palsy	571
Berger, W.	Characteristics of locomotor control in children with cerebral palsy	579
Woollacott, M. H., Burtner, P., Jensen, J., Jasiewicz, J., Roncesvalles, N. and Sveistrup, H.	Development of postural responses during standing in healthy children and children with spastic diplegia	583
Brogren, E., Hadders-Algra, M. and Forssberg, H.	Postural control in sitting children with cerebral palsy	591

NUMBER 5

Blanchard, D. C., Griebel, G., Rodgers, R. J. and Blanchard, R. J.	Benzodiazepine and serotonergic modulation of antipredator and conspecific defense	597
Haracz, J. L., Tschanz, J. T., Wang, Z., Griffith, K. E. and Rebec, G. V.	Amphetamine effects on striatal neurons: implications for models of dopamine function	613
Clement, Y. and Chapouthier, G.	Biological bases of anxiety	623
Mitchell, A. J.	The role of corticotropin releasing factor in depressive illness: a critical review	635
Gross-Isseroff, R., Biegon, A., Voet, H. and Weizman, A.	The suicide brain: a review of postmortem receptor/transporter binding studies	653
McCaughey, S. A. and Scott, T. R.	The taste of sodium	663

NUMBER 6

	Special Issue Section	
Barmess, T. J., and Albers, H.E.	Guest Editorial	677
Loewy, A. D.	Viruses as transneuronal tracers for defining neural circuits	679
Card, J. P.	Practical considerations for the use of pseudorabies virus in transneuronal studies of neural circuitry	685

Norgren R. B. Jr., and Lehman, M. N.	Herpes simplex virus as a transneuronal tracer	695
Tirabassi, R. S., Townley, R. A., Eldridge, M. G. and Enquist, L. W.	Molecular mechanisms of neurotropic herpesvirus invasion and spread in the CNS	709
Griffin, D. E.	A review of alphavirus replication in neurons	721
	General Papers	
Holman, S. D.	Neuronal cell death during sexual differentiation and lateralisation of vocal communication	725
Niittykoski, M., Lappalainen, R., Jolkkonen, J., Haapalinna, A., Riekkinen P. Sr., and Sirviö, J.	Systemic administration of atipamezole, a selective antagonist of alpha-2 adrenoceptors, facilitates behavioural activity but does not influence short-term or long-term memory in trimethyltin-intoxicated and control rats	735
Weijnen, J. A. W. M.	Licking behavior in the rat: measurement and situational control of licking frequency	751
Desmurget, M., Pélisson, D., Rossetti, Y. and Prablanc, C.	From eye to hand: planning goal-directed movements	761
Raffa, R. B.	Possible role(s) of neurokinins in CNS development and neurodegenerative or other disorders	789
Daugé, V. and Léna I.	CCK in anxiety and cognitive processes	815
Schechter, M. D. and Calcagnetti, J.	Continued trends in the conditioned place preference literature from 1992 to 1996, inclusive, with a cross-indexed bibliography	827
Blokland, A.	Reaction time responding in rats	847
Gauntlett-Gilbert, J. and Brown, V. J.	Reaction time deficits and Parkinson's disease	865
Reilly, S.	The role of the gustatory thalamus in taste-guided behavior	883
